25-27 May 2023

Venue Hôtel Palladia – 271 Av. de Grande Bretagne,
31300 Toulouse, France

It is our pleasure, on behalf of the ISFRI and IAFR Boards of Directors and the Scientific Committee, to PHYSICALLY welcome you to the 12th Annual Meeting of the International Society for Forensic Radiology and Imaging (ISFRI) and the 18th Annual Meeting of the International Association of Forensic Radiographers (IAFR), which will take place in France, and more precisely in Toulouse, from 25 to 27 May 2023. Today, forensic imaging plays a major and growing role in forensic science and is a rapidly expanding field of research. The joint ISFRI and IAFR annual meeting is a unique opportunity to learn about the latest developments in this field of forensic radiology and anthropology. It is also, of course, an opportunity to meet colleagues and new friends from around the world.

Do not forget that through the ISFRI and the IAFR we have the unique opportunity to collaborate on an international and interdisciplinary level, which allows us to benefit from the experience and individual knowledge of each and every member of our society.

The joined ISFRI and IAFR meeting is an exclusive forum for international experts to share and compare their experiences in forensic radiology and forensic anthropology.
